By Paul Rardin

This year I'm tossing a great big bright bouquet to an old friend mine who is just about to leave us with a load of police in another year in Hardee county. Harry A. Yester last week started 20 years of service as head of the police department in that tiny city. He is now in New York City where he was born in 1920 when he was born marshals—now it's chief of police—for after all, Wauchula grows a little by day. Chief Yester's welcome greeting to his new friends made a stranger feel at home in the city limits of Wauchula. I lived in Wauchula several years ago and I know in what high esteem he is held there.

Chief Yester is an efficient law enforcement officer—a substantial citizen of the community—and a friend to all who know him. So, this is my way of sending Christmas greetings to Chief Yester and his entire family.

Speaking of law enforcement officers brings me back to the same sort of story that I needed on the south shore of Lake Okeechobee. Last year the sheriff's department of Palm Beach county maintained two patrols in the Lake Region. This year there is only one. Francis Cross of Canal Point who has more than one man do. With hundreds of truck plying the road around the Lake there should be a sufficient number of patrols handling the heavy traffic. I see by the paper where the county commissioners referred a South Bay committee to the State legislature. There is no better chance of relief from this source but I doubt it. After all, there are only a handful of patrolmen to cover 47 counties in the state. I think the commissioners will realize that the sheriff should get together and work out some kind of a plan whereby the school children and motorists may be protected in an area that has such a heavy traffic.

I read somewhere about a flock of transients being arrested and forced to buy Florida automobile tags. The story goes that they had to work out and running a livelihood in Florida. The state law says they must buy Florida tags. I can see no good reason why a fellow who is under the Florida sun and shade law, hasn't contribute something toward the upkeep of government. I'm of the opinion that it is right and proper for these people to buy and pay for Florida tags for their automobiles. They contribute little enough to our state's welfare.

Workmen on Lake Okeechobee—the construction—who are here for the first time—are learning a lot about the waters of that lake. They're learning fast that Lake Okeechobee is not a body of water, but rather a vast expanse of land. A few barges work—work help up-and-various and sundry other happenings of the past few days have taught them a lesson or two. Lake Okeechobee is a tremendous body of water. After all, hasn't the federal government spent over \$20,000,000 in an effort to keep the unruly waters of the lake out of our front yards?

Another Thanksgiving coming and gone. That makes two this year. We celebrated yesterday for our Thanksgiving. We just closed up our business and went home. I can think of so many things for which I'm thankful that it would be impossible to enumerate them.

I'm wondering if you've given and thought to your Christmas shopping. I've made the rounds to Lake Region stores. The proprietors are making every effort to make this the most American finest Christmas merchandise. So this season, when you're making out that shopping list and wondering where you'll get the things you want—be sure to pay a visit to your local stores and buy locally.

Lake Worth Falls Before Blue Devils Wednesday Night

Hobson Get 12 Points While Trojans Chalk Up Nothing

Coach Frank Hobson's Pahokee Blue Devils added another victory to their string Wednesday night when they journeyed to Lake Worth and took the Trojans into camp by a score of 12 to 0.

The game featured the defensive play of both teams and with the exception of one or two attacks by the Blue Devils neither team could much yardage on running plays.

After a scoreless first quarter, Pahokee scored twice in the second. After advancing the ball to the Lake Worth 12-yard line the ball went over to the Trojans. Although the ball was downed at the Rayburn saw his kick blocked and recovered by Hobson who kicked the Lake Worth 5-yard line. The Trojans had for two downs, but were unable to score.

Peacock's pass to End Cowen for the touchdown. Peacock's pass for the extra point was incomplete.

The second touchdown followed shortly afterwards. Lake Worth held its own until Hobson's fourth pass to Frank in the Pahokee 40-yard line and the Blue Devil safety man ran straight down the sideline 60 yards for the touch down with a Lake Worth man near him. John Kuhn's attempted drop kick was wide.

The Trojans threatened once in the third quarter but when they reached the Pahokee 15, but Thomas dropped Dermott's fourth pass to Frank in the same zone to end the threat and make the team threatened again.

The game saw H. B. Baxter back in uniform for the first time since the Plant City game. Young Baxter had been away from the field with pneumonia but has recuperated fast. Coach Hobson sent him in late in the game to do some punting and allowed him to remain for a few plays. The team got off to a good start.

After the plan of federal aid, he said, the soil conservation service will make available tractors and other equipment available for use by farmers.

Despite the fact that the 1938 legislative voted \$75,000 for the district's operations last year, de-creases in general expenses have not failed to cause the governor to limit the fire control districts' operating funds to \$2,000 a month, Stafford said. This is added, he said, to the \$10,000 a month for D. O. McCormick of Hendry county, E. R. Wright of Okeechobee county and M. A. Summers of Glades county.

Stafford said the supervisor had promised aid in raising an additional \$15,000 at the rate of \$3,000 a month for the conservation program under a plan of using money received by trustees of the interest on the trust fund and rents and leases of state-owned lands in the Everglades.

The Glades fire chief also said he was getting along fine and other agencies with the fire control area with the ideal of being matched by federal funds.

According to the law as passed the 1939 legislature act becomes effective three days after receiving a favorable vote of the citizens. Under the new act the fire control districts, a maximum level of 10 miles is possible to support the institution or institutions.

The results, as tabulated at each pre-trial, Plant City, Canal Point, 33; Pahokee, 30; Agapita, 26; Pahokee—15 to 13; against; preict 37; Chosen—15 for 4 against; preict 33; Belle Glade—4 for 45 against; preict 14; against; preict 40; Lake Harbor—13; against; preict 41; Shawin—6 for 0, against.

The Glades fire chief also said he was getting along fine and other agencies with the fire control area with the ideal of being matched by federal funds.

Payment of teachers' salaries will be on a sound financial basis before the school term begins if it is possible to buy the teachers' pay early in December. The tag number of each car will identify early buyers, and additional motorcars to take pride in display of these "honor roll" numbers.

Receipts from tag sales are earmarked for the state teachers' pension fund, which is to be paid to the country on a basis of school attendance. Tag revenue comprised .70 per cent of the state's total aid for schools last year.

The school board of the county shows that teachers are under contract to receive \$322,569 this year, and funds due from the state for paying those teachers will amount to \$370,666. Additional state aid will be received for transportation of pupils.

J. T. Jenkins Seriously Ill In WPB Hospital

J. T. Jenkins, bookkeeper for the Florida Power and Light Company, is in the West Palm Beach Hospital, suffering from a heart condition. A few weeks ago Mr. Jenkins returned from a five week rest in the mountains of Carolina. He resumed his duties with the company, but after working for a week, however, it became necessary for him to go to the hospital for treatment. His many friends and every effort will be made to locate the explosive before sending men back on the dry construction job.

Engagement Announced

Mr. and Mrs. O. D. Taylor announce the engagement of their daughter, Katherine Elizabeth, to Mr. James Harris, son of Mr. and Mrs. R. K. Harris of Bellwood.

Miss Taylor is associated with the United States Post Office in Canal Point. Mr. Harris is associated with the Alfar Creamery in Canal Point. Both of these folks are graduates of Pahokee high school.

Conservation Plan And Fire Control In Effect In January

Chief Stafford Tells Of Progress Being Made By His Department

A \$100,000 Everglades soil conservation and "permanent farm" program is scheduled to get under way in January, W. M. Stafford, chief of the Everglades soil conservation service, said yesterday.

Arrangements for the work, Stafford said, were begun recently at a conference attended by him, Governor Cone and C. K. Davis of the state soil conservation service, which will direct the undertaking.

The project is separate from the \$300,000 water resources survey contemplated for the areas now under cultivation, he said.

Discussions of feasibility of protecting some Glades lands under the program were held under the direction of the state, he said.

Stafford said that due to drainage and other causes some lands in the area are low three to three and half feet of soil each 10 years by erosion even when not damaged by fires.

Under the plan of federal aid, he said, the soil conservation service will make available tractors and other equipment available for use by farmers.

Despite the fact that the 1938 legislative voted \$75,000 for the district's operations last year, decreases in general expenses have not failed to cause the governor to limit the fire control districts' operating funds to \$2,000 a month, Stafford said. This is added, he said, to the \$10,000 a month for D. O. McCormick of Hendry county, E. R. Wright of Okeechobee county and M. A. Summers of Glades county.

Stafford said the supervisor had promised aid in raising an additional \$15,000 at the rate of \$3,000 a month for the conservation program under a plan of using money received by trustees of the interest on the trust fund and rents and leases of state-owned lands in the Everglades.

The Glades fire chief also said he was getting along fine and other agencies with the fire control area with the ideal of being matched by federal funds.

During The Christmas Holidays Why Not Have A

STUDENTS' NIGHT

There are several young men and young women away at colleges—and they will be home for the holidays. We wonder why a Students' Night program couldn't be held at one of the churches in Pahokee or Canal Point. The program could be held on the Sunday night between Christmas and New Year's.

All of the ministers could cooperate in the movement and an interesting program could be worked out for everybody. It might be a good idea to hold Students' Night in Pahokee in one of the churches with a large seating capacity.

Those must be 15 to 20 young men and women from the Pahokee-Canal Point area attending college. The program could consist of an appropriate song service and two or three minute talks by each of the students. It's just an idea—but we think a good one.

Canal Claims Victim Sunday Morning

Earl Holland, 32, Oak Park, Ill., was drowned early Sunday morning when the car in which he was riding plunged into the West Palm Beach Canal.

He was driving with a Negro and a Negro and a Negro were riding with W. D. Bryan of Oakland park when the accident happened. Mr. Bryan remains in a serious condition at the Everglades Memorial hospital. The Negro was unharmed.

The police are investigating the cause of death of Earl Holland.

The Everglades News Is Entered at the Post Office
In Canal Point, Florida, as Second Class Matter.

Paul Rardin . . . Editor and Publisher

With styles as they are today, we can hardly accuse a girl of putting everything she has on her back.

Anything is possible! Some day you will find a wife who thinks her husband is as brilliant a man as he thinks he is.

In the old days we used to think you had to have money to spend it. Today the government has shown us that we were wrong.

Lady Astor says she is sorry the U.S. can't be included in the British Empire. We didn't dump a lot of tea overboard for nothing!

So often the fellow who argues that this is a free country is the same one who expects it to provide him with a living free of charge.

The fellow who talks about the country he comes from being better than the U.S. always finds an ocean boat traveling both ways.

It is strange. A boy spends years learning how to write so he can read it, and goes into business and writes a hand that nobody can read.

Many a man has run into more trouble forgetting to burn letters he didn't want his wife to see, than when he forgot letters she asked him to mail.

The mother who used to swear her child was six years old so he could ride for nothing, now swears he is sixteen so he can drive the family automobile.

The home that had a what-not in the corner, in the old days, and had strange things on it, has a radio in the corner to-day, and gets strange things on it, too.

Fashions may change in men's clothes somewhat. But men hope it never comes to where they wear their trousers up to their knees one season and drag them on the ground the next.

BE POLITE

There has been all sorts of movements in Congress and some are good and some are bad. But some are rather silly! The fact that one of the most recent meetings called forth a word of protest by a Senator who was not even present in the official record. He asked that it might be struck out and said that there is an active movement afoot to abolish the word "kids" when relating to children. It is a distasteful word to many and we can't say that we prefer it to "youngsters" or "tots". But have you ever noticed a man say "kids" when referring to his own children, a d there will be such love and affection ringing in his voice that it takes away any sound that would be disrespectful?

HOMES FOR ALL

It was just before the World War that we purchased reliable autos for less than

TOO LATE TO CLASSIFY

By Russell Kay.

Rare occasions the "boss" gets himself, "behind the eight ball" and leaves it up to me. This girl I'm writing about is the exception to the rule. I've always felt that it was just laziness on his part, with maybe a slight touch of imagination, or something, but this week I find myself in the position of understanding and with good reason.

Last Saturday afternoon Russell and Mrs. Kay were driving to and from a business trip and a smash-up took place. Russell got out with a few scratches and bruised and Mrs. Kay in the hospital with a wrenched back and a bone splinter.

It seems that some fellow with a load of logs and high on an anticipated truck decided to make a left turn just as the Kay car was attempting to pass. "Mama" Kay was at the wheel and to avoid the truck she took to the right, hitting a rock and causing the truck to spin a culvert in attempting to get back on the highway.

I don't know the name, but they tell me that it is a beautiful assaultant and from the looks of the wreck I don't see how anyone got out alive. It sure is amazing how some folks escape, but you see we drift in and out of certain areas in our office, and even though we are the best in the office, we certainly are not the best.

It seems like a fellow named "Mickey" came up in Panama City, who seems to think that he is important enough to be our Chief Executive.

"Mickey" is the son of "Sam" and "Mofina" are still with us, even if they are battered up a bit.

He is a fellow named "Sam" and "Mofina" are still with us, even if they are battered up a bit.

\$500." It had been predicted in about 1904 that such an inexpensive means of transportation would come to pass. You can well imagine the denial and the disbelief that such a rumor would cause among a doubtful public. To think of an auto within the reach of most everyone—impossible! Experts agreed it could not be done, but we did.

Who of us in this section do not know of the prefabricated houses that are going up throughout the country? These houses are offered for rent at \$10 and \$15 a month. The various sections of the house are built in factories and are put together after being delivered labor in a few hours. We hear of a quantity production house built of glue and wood. Who would believe that today, while "western blinds add to the richness of the effect of this car, the buffet is finished in figured wood paneling, while the kitchen, with its bright stained glass windows and glass and chrome is one which will be shown with pride. It is completely equipped for efficient service with a refrigerator unit, range, small sink, cook top, oven and storage space. A service door on the side of the car permits loading of supplies directly into the kitchen.

The fifth car of the train is also a full size passenger "coach," duplicate of cars two and three with the exception of the color scheme. The decorations of soft greys, greens and blues are set off by rose and tan upholstery.

The sixth car is a city two passenger "coach-chair-coach." Unusually large men's and women's lounges are provided, with a piano and chairs. Here the color scheme of the first car is repeated, except for the upholstery, which is in warm brown tones. The end paneling, as in the other cars of the train, is of rich red leather with gold piping. The decorative treatment showing two sea gulls in flight suggestive of the warm seas along the east coast of Florida.

The seventh car is a observation-lounge and tavern car, is given over entirely to entertainment facilities, and is designed for the enjoyment of passengers who desire the comfortable tavern-like accommodations, or the wide view that may be enjoyed in the rounded observation section. The car will seat 57 passengers in its various spaces.

The tavern section, in the forward part of the car, will seat thirty-six persons and shows a strikingly new arrangement. Two lounge, equipped with curved facing desks, the center of the car and providing intimate accommodations for groups or couples at small tables, are divided by a series of cozy booths, the whole effect being one of luxuriously but informally displayed. The coach effect is designed to carry out this theme, with light grey green wainscoting, upper side walls of greyed white, and ceiling of mottled grey. The interior is tastefully decorated in a "drum" motif, and extends into the car from the after end of the tavern. It is backed by plate glass, with shelves conveniently arranged for beverages and glassesware.

The observation lounge is framed in a rounded and streamlined rear end, the rounded effect being carried out in the form of a curved window designed to produce a perfect oval room. Here, broad windows offer a full view of the country through which the train travels, while deep lounge chairs, reclining and swivel, are skillfully arranged to provide maximum comfort. A writing desk is located at the forward end of this lounge, lighted with new-type fluorescent lamps which give a light closely resembling daylight.

We are informed that if we returned to old-fashioned appetites of yester-year our health would not be so much of a problem. Less food is required for today's type of living. There has been a great reduction in consumption since 1906 of wheat, corn, cattle and hogs. Of course we must remember that there has been an increased appetite for fruits and vegetables. But whether it is true or not that increased appetites of the old-fashioned kind would solve the great surplus problem, there are many Lake Okeechobee region folks who can well recall the days when the dinner table was laden twice as heavy and the body needed twice the amount of food.

Vanished indeed are the heavy ladles of our great-grandfathers'. Then to be three and four kinds of meat and vegetables, all sorts of breads and jellies, and a large appetite on the part of all participants. Today, in this area of machine and luxury, we do not have the need of energy and the craving for such large meals as they did in those days. The human frame is not built to work longer hours, the school children worked to walk to and fro which made for an increased appetite. The housewife did not have the electrical equipment which made her work more tiresome. All of this lead to larger appetites than today.

We are informed that if we returned to old-fashioned appetites of yester-year our health would not be so much of a problem. Less food is required for today's type of living. There has been a great reduction in consumption since 1906 of wheat, corn, cattle and hogs. Of course we must remember that there has been an increased appetite for fruits and vegetables. But whether it is true or not that increased appetites of the old-fashioned kind would solve the great surplus problem, there are many Lake Okeechobee region folks who can well recall the days when the dinner table was laden twice as heavy and the body needed twice the amount of food.

He has hit the head for it's pretty hard to deal with IVORY. We went to see "Mama" in the hospital and found she was getting along all right, but it looks as if she'd have to stay there a week or so. But everybody, including the visitors, are mighty pleased and there are now in the progress of frames of mind to really appreciate TWO Thanksgiving.

Russell said to just let the cold go on, "I know if I did that I would have to go to the doctor next week answering phone calls and telegrams and letters from publishers and customers wanting to know "how come"—so I figured it out and it's easier to try to stay off the column myself and explain the situation."

The Doc says a day or two in bed ought to fix the boss up O.K. I'm continuing his bed rest and will be back to the circulation desk to fix up a real column for next week. Now I've said all I really had to stay and still have a lot of space for my column and now I have to really appreciate what the boss has said to his old typewriter chafing his finger nails and scratching his head for hours sometimes when he's working out a column.

Of course I suppose I COULD write up the column myself, but I imagine I know as much about it as anybody at this time, which is mighty near nothing at all. But, when looking over the papers I see that a man is a person and is fixing to get the woods on fire, confident that "Virtue will be rewarded."

There is a fellow named "Sam" and "Mofina" are still with us, even if they are battered up a bit.

They tell me that it is a beautiful assaultant and from the looks of the wreck I don't see how anyone got out alive. It sure is amazing how some folks escape, but you see we drift in and out of certain areas in our office, and even though we are the best in the office, we certainly are not the best.

It is completely equipped for efficient service with a refrigerator unit, range, small sink, cook top, oven and storage space. A service door on the side of the car permits loading of supplies directly into the kitchen.

The fifth car of the train is also a full size passenger "coach," duplicate of cars two and three with the exception of the color scheme. The decorations of soft greys, greens and blues are set off by rose and tan upholstery.

The sixth car is a city two passenger "coach-chair-coach." Unusually large men's and women's lounges are provided, with a piano and chairs. Here the color scheme of the first car is repeated, except for the upholstery, which is in warm brown tones. The end paneling, as in the other cars of the train, is of rich red leather with gold piping. The decorative treatment showing two sea gulls in flight suggestive of the warm seas along the east coast of Florida.

The seventh car is a observation-lounge and tavern car, is given over entirely to entertainment facilities, and is designed for the enjoyment of passengers who desire the comfortable tavern-like accommodations, or the wide view that may be enjoyed in the rounded observation section. The car will seat 57 passengers in its various spaces.

The tavern section, in the forward part of the car, will seat thirty-six persons and shows a strikingly new arrangement. Two lounge, equipped with curved facing desks, the center of the car and providing intimate accommodations for groups or couples at small tables, are divided by a series of cozy booths, the whole effect being one of luxuriously but informally displayed. The coach effect is designed to carry out this theme, with light grey green wainscoting, upper side walls of greyed white, and ceiling of mottled grey. The interior is tastefully decorated in a "drum" motif, and extends into the car from the after end of the tavern. It is backed by plate glass, with shelves conveniently arranged for beverages and glassesware.

The observation lounge is framed in a rounded and streamlined rear end, the rounded effect being carried out in the form of a curved window designed to produce a perfect oval room. Here, broad windows offer a full view of the country through which the train travels, while deep lounge chairs, reclining and swivel, are skillfully arranged to provide maximum comfort. A writing desk is located at the forward end of this lounge, lighted with new-type fluorescent lamps which give a light closely resembling daylight.

We are informed that if we returned to old-fashioned appetites of yester-year our health would not be so much of a problem. Less food is required for today's type of living. There has been a great reduction in consumption since 1906 of wheat, corn, cattle and hogs. Of course we must remember that there has been an increased appetite for fruits and vegetables. But whether it is true or not that increased appetites of the old-fashioned kind would solve the great surplus problem, there are many Lake Okeechobee region folks who can well recall the days when the dinner table was laden twice as heavy and the body needed twice the amount of food.

Vanished indeed are the heavy ladles of our great-grandfathers'. Then to be three and four kinds of meat and vegetables, all sorts of breads and jellies, and a large appetite on the part of all participants. Today, in this area of machine and luxury, we do not have the need of energy and the craving for such large meals as they did in those days. The human frame is not built to work longer hours, the school children worked to walk to and fro which made for an increased appetite. The housewife did not have the electrical equipment which made her work more tiresome. All of this lead to larger appetites than today.

SOCIAL and PERSONAL ITEMS Pahokee and Canal Point

Students Present Play To Mothers

Mrs. Minnie Callaway's fifth grade pupils presented a Thanksgiving radio sketch at the meeting of the Mother's Club in the school auditorium Friday afternoon. Helen Hough, Mrs. Dale Dan took the parts of children and Jackie Crocker was announcer for the following numbers: piano solo, Wendell Smith; reading, Doris Harper; vocal solo, Pauline Edwards; tap dance trio, Captain Cook, Lois Mornan and Dona Hillier; Thanksgiving playlet, fifth grade pupils and songs selection, fifth grade pupils.

Mrs. J. Q. Henry, principal speaker, gave an address on "When Your Child Feels Inferior," over a "Flash a call" intercom system which was being demonstrated to the club by William E. Parker, Gordon Eaton, West Palm Beach.

Mrs. Fred L. Martin, president, presided.

Others attending were: Mrs. Ollie Hall, Mrs. Gene McMillen, Mrs. Sam McKinstry, Sr., Miss Mary Collar, Mrs. Axel Jensen, Mrs. R. J. Schroder, Mrs. Doyle Crocker, Miss Sue Parrish, Mrs. Paul W. S. and Mrs. J. W. Crum, Mrs. Betty Lou LaFever, Mrs. B. Elliott, Mrs. Jessie Bass, Mrs. G. B. Ramey, Mrs. Paul Jordan, Mrs. A. Phillips, Mrs. Victor Gelzer, Mrs. M. Thompson, Mrs. R. D. Moore, Miss J. Lawrence and Miss Elizabeth Caraway.

Miss Maloy And Mr. Swayne Married

Mrs. and Mrs. L. I. Maloy of Pahokee announced the marriage of their daughter, Miss Malie Weese Maloy, to Stewart Keeton Swayne of the First United Methodist Church Friday evening. The Rev. Fred L. Martin, Jr., pastor of the church, officiated at the candle light ceremony which was performed in the presence of many families and a small group of friends. Mr. and Mrs. Swayne chose the date in compliment of Rev. and Mrs. Martin, who were celebrating their 25th wedding anniversary on the same day. Miss Jessie Maloy was her sister's maid of honor and A. J. Wayne was the best man. Other attendants were Miss Bette Mildred Everett and Haywood Baxter, Pa-

hokee, and R. J. Brown of Clewiston, and R. J. Brown of Clewiston.

Mrs. Swayne, a resident of Pahokee since childhood, graduated from the Pahokee High School in the class of '31. At the time her marriage was employed at Bicker's Dental office. Mr. Swayne, son of Mrs. H. Baker of Canal Point, is employed by the United States Sugar Corporation at Clewiston, where they will make their home.

The Pahokee Girl Scout troop at its meeting postponed a trip to the Indian Reservation near Brighton, Florida, for Saturday, until after Christmas. The girls planned to have a rummage sale Saturday. Their present project is the making of hooked rugs, according to Mrs. O. D. Carpenter, captain.

Mrs. Gloria John Dulaney, Miss Virginia McClure, Miss Katherine Hull and Miss Clark Hull, students at Southern College, have arrived here to spend the holidays with their parents, Mr. and Mrs. John Dulaney, Mr. and Mrs. O. B. McClure and Mr. and Mrs. W. G. Hull.

Floyd Jones and Graham Gibson have returned to North Carolina, after visiting Mrs. Jones' mother, Mrs. S. Jones here.

Charlie Robinson spent the week end in Jacksonville visiting his family.

Mrs. D. B. Hazelton of Massachusetts has arrived here for a visit with her brother in law and sister, Mr. and Mrs. H. J. Anderson.

Mrs. Irene Pope, Belle Glade, is a patient at Everglades Memorial Hospital.

Imogene Huff, Wauchula, has arrived here to spend the season with Mr. and Mrs. Lee Rawls.

Mrs. Sara Hatton, Brutus, Ky., has arrived here for a visit with her son, Joe and Robert Hatton and families.

Mr. and Mrs. Tom Youngblood have as house guests Mrs. Youngblood's mother from North Florida.

Mrs. Margaret Thompson spent the past week in Belle Glade visiting her son-in-law and daughter, Mr. and Mrs. A. E. Kirchman.

Mr. and Mrs. A. L. Creel and daughter, Mrs. Edna Creel, Emery and daughter, West Palm Beach, visited friends and relatives here last weekend.

Mrs. Frank Sage, son Charles of Pawpaw, Michigan, and Mrs. T. N. Matchett of Pensacola, Fla., are the guests of Mr. and Mrs. N. D. Evans in Pahokee. While here they will visit Miami and other points of interest on the Lower East Coast with Mr. and Mrs. Evans.

BELLE GLADE

Birthday Party For Young Son

Mrs. F. B. Stevens honored her son Frederick with a happy birthday party on his sixth birthday anniversary, at their home at the Everglades Experiment Station on Tuesday afternoon. Mrs. Stevens was assisted with the entertainment by her husband, Mr. F. D. Stevens, and sons, Bobby Bass and Albert Stevens. Refreshments of punch and cake were served. Others present were: Carolyn Snyder, Jane Hamilton, Kenneth Ortiz, James Morris, Mrs. Bass, Lee Neller, Dorothy Kidder, Barbara Wedgworth, Nancy Jane Moore, Peggy and Virginia Wilson, Susanne Forsee, Dickie Townsend and Curtis Clarke.

Party Given For Newlyweds

Mr. and Mrs. F. D. Stevens entertained with an informal party at their home at the Everglades Experiment Station on Saturday night, honoring Mr. and Mrs. William Schaffert, who were married recently. The members of the station presented them with a com set of silverware. Mrs. Stevens was assisted by Mrs. J. R. Neller and Miss Pauline Miller. Games were played including the racing and refreshments were served. Those present: Mrs. Thomas Bregger, Mr. and Mrs. Edward King, Mr. and Mrs. B. S. Clayton, Mr. and Mrs. Ralph Kid-

Surprise Party On Birthday

A surprise birthday dinner was held at the home of Mrs. L. M. Mathis, Sr., on her sixty-fifth birthday anniversary.

Invited and other, Mr. and Mrs. O. D. Thompson, Mr. and Mrs. Mathis, Jr., and children; Mr. and Mrs. Thomas Nix and children of Okeechobee, Mr. and Mrs. W. O. Chesser and children, Mr. and Mrs. J. L. Mathis, Jr., and children; Mr. and Mrs. Ronald Nixon and children of Clewiston, Mr. and Mrs. C. Wood, and Mrs. B. Q. Waddell, Mrs. I. E. Hamilton, Mrs. Francis Hartin, Mrs. Hubert Terry, Mrs. Dickie Dickens. Guests were Mrs. Goo, Williams, Mrs. Kathryn LuQuire, and Mrs. Luther Jones.

Juvenile Party For John Thompson

Mrs. Curtis Thompson honored her son John with a surprise party at her home on the Clewiston Road Saturday afternoon celebrating his second birthday anniversary. Games were played and refreshments were served.

Mr. and Mrs. Frank Anderson, Mrs. Clyde Doellie, Mrs. James Darren, Mrs. Henry Stollenberg, and Mrs. Frank Anderson, Mrs. Charles T. Thompson, Mr. Richard Townsend, Mr. David Anderson, Monte Doolittle, Millie Nash, and Miss Elizabeth Caraway.

Mrs. Curtis Thompson honored her son John with a surprise party at her home on the Clewiston Road Saturday afternoon celebrating his second birthday anniversary. Games were played and refreshments were served.

Mr. and Mrs. Ronald Brooker and children, Mr. and Mrs. John Dulaney, Mr. and Mrs. W. G. Hull, and Mrs. Robert Walker and daughter, Eleanor, recently accompanied Mrs. Ronald Brooker and children to Fort Lauderdale, where they visited relatives.

Mrs. Frank Beardsley and child, Weston, recently Mr. and Mrs. Beardsley, who have been visiting their parents, Mr. and Mrs. John Dulaney, Mr. and Mrs. W. G. Hull.

Robert Jones and Graham Gibson have returned to North Carolina, after visiting Mrs. Jones' mother, Mrs. S. Jones here.

Charlie Robinson spent the week end in Jacksonville visiting his family.

Mrs. D. B. Hazelton of Massachusetts has arrived here for a visit with her brother in law and sister, Mr. and Mrs. H. J. Anderson.

Mrs. Irene Pope, Belle Glade, is a patient at Everglades Memorial Hospital.

The marriage of Mrs. Antonietta S. Teller and Hugh J. Bradley was performed at noon Tuesday at the Community Methodist Church in the presence of a few intimate friends and relatives.

The Rev. O. J. Martin officiated, reading the impressive double ringing ceremony. The only attendants were Mr. and Mrs. E. Riedel.

The bride was attired in an elegant white Bridal crepe with hand-embroidered accessories, and carried a corsage of orchids.

Mrs. Bradley has lived here a number of years, having come here from Canada as one of the pioneers of the Everglades. She is a native of Ontario, Canada.

Mr. Bradley has lived in Belle Glade eight years. He was born

in New York City.

Mrs. Antonietta S. Teller, son Charles of Pawpaw, Michigan, and Mrs. T. N. Matchett of Pensacola, Fla., are the guests of Mr. and Mrs. N. D. Evans in Pahokee. While here they will visit Miami and other points of interest on the Lower East Coast with Mr. and Mrs. Evans.

Mr. Bradley has lived in Belle Glade eight years. He was born

in New York City.

Mrs. Antonietta S. Teller, son Charles of Pawpaw, Michigan, and Mrs. T. N. Matchett of Pensacola, Fla., are the guests of Mr. and Mrs. N. D. Evans in Pahokee. While here they will visit Miami and other points of interest on the Lower East Coast with Mr. and Mrs. Evans.

The marriage of Mrs. Antonietta S. Teller and Hugh J. Bradley was performed at noon Tuesday at the Community Methodist Church in the presence of a few intimate friends and relatives.

The Rev. O. J. Martin officiated, reading the impressive double ringing ceremony. The only attendants were Mr. and Mrs. E. Riedel.

The bride was attired in an elegant white Bridal crepe with hand-embroidered accessories, and carried a corsage of orchids.

Mrs. Bradley has lived here a number of years, having come here from Canada as one of the pioneers of the Everglades. She is a native of Ontario, Canada.
